

International Biomedical Laboratory Science Day

15th April, 2025

Dear Members and Colleagues,

Wish you a Happy International Biomedical Laboratory Science Day- 15th April !

The International Federation of Biomedical Laboratory Science (IFBLS) is an International body of national Associations/Societies from 38 countries, representing more than 240000 Biomedical Laboratory Scientists/Medical Laboratory Professionals worldwide.

International BLS Day 15th April: International Federation of Biomedical Laboratory Science established BLS Day in 1996 at the IFBLS World Congress in Oslo, Norway to promote and celebrate the key role of Biomedical Laboratory personnel in diagnostic and preventive health care systems.

The purpose & Importance of BLS Day: This day is important for increasing the awareness of the role that Biomedical Laboratory Scientists/Medical Laboratory Professionals have in providing health care worldwide. Biomedical Laboratory Scientists play a key role in diagnosis, quality development and assurance, treatment, research and development in the modern medical sciences. International BLS Day gives our profession a day to promote and celebrate ourselves as a profession. The theme for the day is selected by the IFBLS Board of Directors and is related to health issues and supports the UN and WHO Sustainable Development Goals (SDGs). The theme is used for two years.

Biomedical Laboratory Scientists/ Medical Laboratory Professionals are one of the largest groups of health-care professionals and have a vital role in medicine and public health. The best person to promote our profession is a confident Biomedical Laboratory Scientist. We understand our role in healthcare and are the best to carry our message. Use the BLS Day actively and promote the BLS' professional skills and contributions to ensure good health services.

All members Associations of the IFBLS celebrate International Biomedical Laboratory Science Day (IBLS) on the 15th April of every year. Being a permanent member of IFBLS, the ICMLS is joins hands with the global Medical Laboratory Science fraternity in celebrating 15th April as International Biomedical Laboratory Science Day (IBLS Day), an important day to promote and celebrate ourselves as a profession.

The Posters are available on <https://www.ifbbs.org> and <http://icmls.com> to assist you in celebrating International BLS Day-2025. This year's poster encompasses the entire spectrum of a sample journey from the patient through the laboratory with the best methods and quality assurance to ensure the correct result, thus enabling the clinician to diagnose the disease leading to quality healthcare delivery to the patient.

We wish you all a happy International BLS Day! 15th April.

The theme for International BLS Day 2025

"Biomedical Laboratory Scientists Promoting Sustainability in Clinical Diagnostics"
